Home Automation Made Easy

# Wireless Home Automation

## Indoor Lights L100 L200 L410 L500

Easy Kit L410

Enhance your living & entertainment areas with indoor dimmers & wireless wall switches. It's affordable & easy to install.

## Security Monitoring F200

Easy Kit F200

Control & monitor your home and property via SMS. Receive alerts & send messages back to activate lights & alarms.

## Climate Control G100 T100

Easy Kit T100

Reduce energy consumption & costs by automating your air conditioning or heating. It is the smart way to save energy.

### Quality & Affordable

TechHome's European designed wireless home automation products combine quality and affordability. Easy to install in both new and existing homes, our wireless home automation products enable home owners to build a home automation system to suit any budget. Quality automation at an affordable price.

### Flexible & Easy

Installing a TechHome automation system allows the home owner to control and monitor household devices via remote control or SMS. It's simple to set up grouped and timed functions to activate lights, security monitoring and climate control. Less time spent on mundane tasks gives you more quality time to enjoy.

Home Automation Made Easy

# Remote Controls

## Outdoor Gates & Doors D100 D200

Easy Kit D100

Open your front gates & garage doors, and turn on inside & outside lights from the safety & comfort of your car when you arrive home.

## Awnings & Shutters D200

Easy Kit D200

Enhance privacy and reduce heat transfer. TechHome's reliable awning & shutter controllers are installed in a large number of Australian homes.

## Outdoor Lights F100 F200

Easy Kit F100 (plus wall switch)

Solve the problem of inappropriately positioned outdoor security & garden light switches by adding conveniently located TechHome switches & remotes.

### Save Resources

TechHome's wireless home automation products allow home owners to reduce household energy consumption. For example, by controlling shutters and air conditioning you can significantly cut energy usage. Less energy consumed means fewer greenhouse gases and lower electricity bills.

### Lifestyle & Value

TechHome's quality remote controls provide value-for-money automation. Easily automate garage doors, gates, blinds, shutters and outdoor lighting to give your family more privacy and security. Enhance your property and lifestyle.
